

Scotty Ditrich

Scotty was first introduced to the sport of pickleball by a friend in 2018, and after watching others play and trying it himself, he was instantly hooked! Scotty has made a new network of friends and contacts all around the country as a result of pickleball!

After his first year of learning and playing, he found himself soaking up as much information as he could through talking with higher level players and watching endless videos to help his game improve. Scotty entered his first tournament and ladder leagues and hasn't looked back! He has participated in and medaled in local tournaments as well as in Florida and Hawaii.

In 2020, Scott decided to push his knowledge even further by studying and preparing for USAPA's Instructor course; he earned the highest level, Pro Certification, through the Professional Pickleball Registry. Following that, Scott also passed PPR's Trained Referee certification and has refereed at several tournaments.

Pickleball has changed Scotty's life; it might change yours as well! As Scotty says, *"If you're just wanting to learn the game, up your level, or correct your mechanics, I can get you there. You don't have to be great to get started but you have to get started to become great! What are you waiting for?!? Let's go!"*
